ABOUT US

SPECIALISING IN THE DECONTAMINATION OF SURGICAL INSTRUMENTS, WE AT STERICARE HAVE BEEN IN THE DENTAL INFECTION CONTROL BUSINESS FOR WELL OVER TWO DECADES. HAVING FORMED IN 1987, WE PROVIDE HEALTH CARE PROFESSIONALS WITH DECONTAMINATION EQUIPMENT AND AFTER-SALES SUPPORT. MANY CUSTOMERS ARE LEFT IN THE DARK WHEN PURCHASING SPECIALISED PRODUCTS AND EQUIPMENT, SO WE OFFER A PROFESSIONAL AND FRIENDLY SUPPORT SERVICE THAT EXTENDS TO ALL.

EVOLUTION

OUR PHILOSOPHY HAS ALWAYS BEEN TO PUT CUSTOMERS FIRST, WHETHER THEY ARE A SMALL DENTAL PRACTICE, A BUSY MEDICAL SURGERY OR A LARGE NHS TRUST. WE ENSURE THAT ALL CUSTOMERS RECEIVE THE SAME CARE AND ATTENTION TO DETAIL, AND ONLY SUPPLY EQUIPMENT THAT WE HAVE CONFIDENCE IN SUPPORTING IN THE FIELD.

PRODUCTS

WE ARE CONTINUALLY EXPANDING OUR RANGE OF PRODUCTS AND SERVICES TO MEET OUR CUSTOMERS' NEEDS. RECENTLY WE HAVE ADDED LINES FROM MOCOM AND KRONOS, AND A RANGE OF SENSIBLY PRICED TESTING STRIPS FOR BOTH AUTOCLAVES AND WASHER DISINFECTORS.

TRAINING & EDUCATION

OUR STAFF REGULARLY UNDERGO TRAINING TO ENSURE THEY ARE FAMILIAR WITH THE LATEST PRODUCT RANGES, AND HAVE AT THEIR DISPOSAL A QUALIFIED MICROBIOLOGIST AND PRODUCT SPECIALISTS WHO CAN ADVISE ON ALL OUR CUSTOMERS' DECONTAMINATION QUERIES.

NEW PRODUCTS

WE HAVE JUST LAUNCHED THE VERIFY+ DENTAL UNIT WATERLINE (DUWL) DISINFECTANT (SEE **PAGE 7**). THIS PRODUCT IS UNDER HALF THE PRICE OF THE MARKET LEADER, OFFERING TRUE SAVINGS WHILE GIVING OUTSTANDING EFFICACY IN THE REMOVAL OF BIOFILM.

TO COMPLIMENT THIS, WE HAVE LAUNCHED THE 'VERIFY CLUB', WHICH INCLUDES THE ANNUAL PRACTICE CERTIFICATION FOR DUWLS. OUR IN-HOUSE SCIENTIFIC DIRECTOR OVERSEES THE RUNNING OF THIS, AND EACH QUARTER WE WILL SEND YOU A WATER SAMPLER FOR SELF-VERIFICATION OF THE VERIFY+ DISINFECTANT (AS PER THE 'MANUFACTURERS GUIDELINES' IN ACCORDANCE WITH HTM01-05).

WE KNOW THERE ARE MANY COMPANIES YOU COULD ORDER FROM AND WE SINCERELY THANK YOU FOR CHOOSING STERICARE.

10 REASONS

FOR CHOOSING VERIFY+ CLEANING & DISINFECTION PRODUCTS

- 01 + Alcohol and bleach free
- 02 + Cost effective 2-in-1 cleaning and disinfection
- 03 + Bactericidal, Virucidal and Fungicidal
- 04 + One stop shop for all dental practice needs, including hands, surfaces, instruments, water lines and impressions
- 05 + Meets or exceeds EN test standards against bacteria, fungi and viruses
- 06 + Gentle on skin
- 07 + 99% Water (excludes concentrate)
- 08 + Reduced COSHH Risk
- 09 + Odour free, better for staff and patients
- 10 + May be used on most surfaces including leather, fabric and corian without causing damage

ANTI-MICROBIAL SANITISING SOAP

(SECTION 6.5, 6.7 & 6.11)

VERIFY+ Anti-Microbial Hand Sanitising Soap cleans and disinfects hands to EN test standards without leading to the skin irritation often associated with alcohol based solutions. The solution uses a mild but powerful formula which is gentler on hands than traditional surgical scrubs and also has a pleasant neutral smell.

ANTI-MICROBIAL SANITISING FOAM

VERIFY+ Anti-Microbial Hand Sanitising Foam is an alcohol free hand sanitiser for hand disinfection that is designed to disinfect hands between washing or surgical scrubs to effectively remove harmful microorganisms. Because it is alcohol free it doesn't damage hands and at the same time it has a pleasant natural smell. Furthermore, you don't need to use a separate moisturiser as our foam will not dry skin like alcohol-based hand sanitisers.

Both the soap and foam are available as a 600ml pump bottle with wall bracket or 1 litre refill for touch-less dispenser.

“ We have used different wipes over the years, but the VERIFY+ Wipes seem so much more durable. There is the perfect amount of solution on them to make sure you get really good coverage but you don't leave surfaces too wet. After over 20 years in dental nursing, I have developed a bit of a cleanliness obsession, and these wipes give me the results I'm after and the confidence I'm doing a good job. ”
Karen Silvers, Dental Nurse

2-IN-1 DETERGENT & DISINFECTION SPRAY & REFILL

VERIFY+ Combined Detergent and Disinfectant Spray is an alcohol free solution, for cleaning and disinfection, that is effective against bacteria, fungi and viruses to EN test standards. The solution has a pleasant neutral smell and also has the same chemical hazard rating as water so no special protective clothing is required for use.

Available as a 750ml trigger spray

“ The best thing is that it is odourless. You get a good clean but you're not left with a lingering smell that some cleaners have which I find a bit overpowering. ”
Georgia Waide,
 Dental Nurse

DENTAL IMPRESSION DISINFECTION SPRAY / BATH

Alcohol free dental impression spray or bath (dip) for the disinfection of impressions & removable appliances. VERIFY+ Dental Impression & Removable Appliance Disinfectant provides a safe, simple and cost-effective solution to the problem of bacterial and fungal contamination of dental impressions by inhibiting the growth of mould. A major benefit of its low hazard rating is that it won't damage or distort the impression.

FEATURES

- + Ready to use spray or bath (dip)
- + Effective against bacteria, fungi and viruses to EN test standards
- + Same hazard rating as water so no need for special protective clothing
- + Class IIb CE Marked for disinfection of a medical device

SPECIFICATION

Comes with free labels to confirm disinfection has taken place (the labels can be dated and signed).
 Available as 1 litre spray or 5 litre bath (dip).

DENTAL UNIT WATER LINE

VERIFY+ Dental Unit Water Line Disinfectant is an alcohol free solution that safely and effectively removes biofilm from dental unit water lines (DUWL).

One of the main advantages of this product, besides its outstanding efficacy, is that it comes ready to use so staff time is not wasted preparing the solution. It also only needs to be used once a week and patients do not have the inconvenience of a disinfectant going into their mouths during treatment.

Another major benefit is that the product has the same chemical hazard rating as water so it will not damage pipes, water bottles or hand pieces.

SPECIFICATION

- + Ready to use product
- + Outstanding efficacy to remove biofilm and to prevent any further build up
- + Alcohol free formulation
- + Same hazard rating as water
- + Class IIa CE Marked for disinfection of a medical device

INSTRUMENT & ULTRASONIC BATH CLEANER CONCENTRATE

VERIFY+ Instrument & Ultrasonic Bath Cleaner Concentrate is a concentrated solution for cleaning instruments manually or in an ultrasonic bath. It is a gentle but powerful cleaning agent that has been formulated to help in the reprocessing of re-useable dental instruments which are suitable for immersion in liquid.

Being an alcohol free solution, it won't bind protein to stainless steel.

SPECIFICATION

- + It can be used as a manual scrub and in an ultrasonic bath
- + Non-Corrosive
- + 1 litre produces 20 litres of product
- + 5 litre produces 100 litres of product

“ Bottles easy to read and clear instructions. Odourless so you don't have a chemical smell when you use them. ”
Christina Roberts,
 Dental Nurse

Dental Nurse

HELIX PROCESS CHALLENGE TEST DEVICE

Helix Process Challenge Test Device (PCD) made using stainless steel rather than conventional plastic means that the VERIFY+ Helix PCD is a more durable device. It will last up to 1000 cycles, which equates to four years of use. The Helix Process Challenge Test Device is used to ensure that your steriliser is functioning properly, as indicated by a test strip which is placed inside the helix PCD module and changes.

SPECIFICATION

- + Helix module capsule is made with stainless steel
- + Includes 250 adhesive indicator strips as standard
- + Suitable for use with Type B small steam sterilisers
- + Manufactured under ISO 11140-1, EN867-1 & IRAM 37101-1 standards
- + Last up to four years

Includes 250 test strips as standard
Includes cotton bag for processing
